

CITY OF HEALDSBURG

ORDINANCE NO. 1158

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF HEALDSBURG REPEALING ORDINANCE NOS. 1102 AND 1110 AND ADOPTING BY REFERENCE THE 2016 CALIFORNIA BUILDING STANDARDS CODE TITLE 24 AS MANDATED BY THE STATE BUILDING STANDARDS COMMISSION WHICH INCLUDES; THE CALIFORNIA ADMINISTRATIVE CODE PART 1, THE CALIFORNIA BUILDING CODE PART 2 VOLUMES 1 & 2 INCLUDING DIVISION II AND APPENDIX CHAPTER J AS AMENDED, THE CALIFORNIA RESIDENTIAL CODE PART 2.5 INCLUDING DIVISION II AS AMENDED, THE CALIFORNIA ELECTRICAL CODE PART 3 AND TABLES AS AMENDED, THE CALIFORNIA MECHANICAL CODE PART 4 AND STANDARDS AS AMENDED, THE CALIFORNIA PLUMBING CODE PART 5 AND STANDARDS AS AMENDED, THE CALIFORNIA ENERGY CODE PART 6, THE CALIFORNIA HISTORICAL BUILDING CODE PART 8, THE CALIFORNIA EXISTING BUILDING CODE PART 10 AS AMENDED, THE CALIFORNIA GREEN BUILDING STANDARDS CODE PART 11 AS AMENDED, AND THE CALIFORNIA REFERENCED STANDARDS CODE PART 12, THE INTERNATIONAL PROPERTY MAINTENANCE CODE 2015 EDITION AS AMENDED

WHEREAS, the California Building Standards Commission has adopted a new Title 24 of the California Code of Regulations, also referred to as the 2016 California Building Standards Code, that will become effective statewide on January 1, 2017; and

WHEREAS, California Health and Safety Code Sections 17958, 17958.5, 17958.7 and 18941.5 establish the authority for a city to adopt and make local amendments and modifications to the building standards in the California Building Standards Code to establish more restrictive building standards than those contained in the California Building Standards Code; and

WHEREAS, California Health and Safety Code Sections 17958, 17958.5, 17958.7 and 18941.5 permit a city to make such local amendments and modifications as the city determines are reasonably necessary because of local climatic, geological or topographical conditions; and

WHEREAS, California Health and Safety Code Sections 17958, 17958.5, 17958.7 and 18941.5 require a city, before making any amendments and modifications to the California Building Standards Code, to make an express finding that such amendments and modifications are reasonably necessary because of local climatic, geological or topographical conditions; and

WHEREAS, Government Code Section 50022.2 permits enactment of city ordinances that adopt codes or statutes, including codes of the State of California, by reference; and

WHEREAS, notice of the Ordinance was published in accordance with Government Code Sections 50022.3 and 6066; and such notice was sufficient to give notice to interested persons of the purpose of the ordinance and the subject matter thereof.

NOW, THEREFORE, the City Council of the City of Healdsburg does ordain as follows:

SECTION 1. OLD CODES REPEALED

Chapters 15.04, 5.16 and 15.24 (Ordinance Nos. 1102 and 1110) of the Healdsburg Municipal Code are hereby repealed in their entirety.

SECTION 2. FINDINGS

The City Council of the City of Healdsburg finds that, in order to best protect the health, safety and welfare of the citizens of the City of Healdsburg, the standards of building within the city must conform to state law except where local conditions warrant more restrictive regulations.

Pursuant to Section 17958 of the California Health and Safety Code, the governing body of the City of Healdsburg, in its ordinance adopting the State Building Standards Code and uniform industry codes, may establish amendments which are more restrictive in nature than those adopted by the State of California commonly referred to as Title 24 of the California Code of Regulations. Based on the materials presented and by the recommendation of the Building Official, the City Council further finds that it is necessary to make the procedural and administrative modifications to the California Building Standards Code and to adopt or not adopt certain appendices to the Code. Under the provisions of Section 17958.5 of the California Health and Safety Code, local amendments shall be based on climatic, geological and topographical conditions. As such, the City Council finds and declares that the following local conditions exist:

- A. **Climate.** The City, on an average, experiences an approximate annual rainfall of 40 inches. This rainfall can normally be expected between October and April. During the winter months, the City may experience periods of heavy rain, which causes local flooding, erosion and contributes to slope instability. Winter storms are often accompanied by high winds, which have uprooted trees and damaged power lines. The City has also experienced periods of heavy fog, which has delayed the response time for firefighting apparatus, and prevented early discovery of structure fires.

During the dry period, temperatures range from 70 degrees to over 100 degrees. These temperatures are often accompanied by a wildland-urban interface, creating a hazardous fire condition. With increased development spreading into the brush covered foothill area, wind driven fires could have severe consequences, as has been demonstrated on several occasions throughout the State.

- B. **Geological.** The City is susceptible to seismic hazards resulting from movement along any one of several known faults in the area. The most serious direct earthquake hazard threat is from the damage or collapse of buildings and other structures due to ground movement. In addition to damage caused by earthquakes, there is a possibility of earthquake-induced landslides. Fire is often the major form of damage resulting from earthquakes. Most earthquake-induced fires start because of damage to gas lines, power lines or heat producing appliances. In addition, unstable slopes have been identified in the City, which present a significant potential for landslides. In the event of a major earthquake or landslide, many areas of the City may not be accessible to emergency equipment and, if bridges or roads are damaged, the City may be isolated from outside assistance.
- C. **Topographical.** The City borders include hilly terrain on the north, east and northwest portions of the City. The roadway systems in these hills are designed around the lay of the land with respect to narrow, winding and steep access ways. The grades of these roadways sometimes exceed 25% and road widths of less than 12 feet are not uncommon. The City is also bordered by Highway 101 and the Russian River and divided by a railroad right-of-way. The railroad, river and freeway all create barriers, which obstruct traffic patterns and delay the response time for fire equipment. The water supply within the City is directly affected by the topographical layout. The water distribution system consists of pressure zones, which carry water by gravity from various reservoirs. Water flow within the City can vary from less than 250 gallons per minute to flows in excess of 4,000 gallons per minute. This wide variation causes major problems to development as well as to fire suppression efforts. The hilly terrain contributes to drainage, erosion and slope instability problems for development.

Summary

Because of the conditions stated above, the Healdsburg Planning & Building Department must modify and amend certain portions of the California Building Standards Code to ensure that minimum construction requirements, standards and practices are in place to protect the life and safety of the citizens of the City of Healdsburg. Because of the conditions above, the Department has determined that it is necessary to mitigate the potential damage caused by earthquakes, erosion, lot to lot drainage and slope instability to protect the life and safety of the citizens and to ensure the structural stability of new development.

As a result of the findings, as set forth in this section, which identify various climatic, geological and topographical elements, those additional requirements as specified in the amendments to the adopting ordinance supplementing and amending the codes herein, are considered necessary and reasonable modifications and do not lessen, diminish or change the standards set forth within the California Building Standards Code except as authorized by law.

While it is clearly understood that the adoption of such regulations may not prevent the incidence of fire, earthquake, erosion and slope instability, the implementation of the following amendments to the Code may reduce the severity and potential of loss of life and property and are reasonably necessary because of the local climatic, geological, and topographical conditions:

<u>Chapter or section no.</u>	<u>Local climactic, geological or topographical conditions</u>
California Building Code (CBC)	
CBC Chapter 1, section 1.8.8.1 is amended	A, B, C
CBC Chapter 1, section 1.8.8.3 is amended	A, B, C

and replaced with CBC Chapter 1 Division II, sections 102
through section 116 as amended A, B, C

SECTION 3. CODES ADOPTED AND AMENDED

Chapter 15.04, “Construction Codes” is hereby adopted, to read as follows:

Sections:

15.04.010	Codes Adopted
15.04.020	2016 California Building Code amendments
15.04.030	2016 California Residential Code amendments
15.04.040	2016 California Electrical Code amendments
15.04.050	2016 California Mechanical Code amendments
15.04.060	2016 California Plumbing Code amendments
15.04.070	2016 California Existing Building Code amendments
15.04.080	2016 California Green Building Standards Code amendments
15.04.090	2015 International Property Maintenance Code amendments
15.04.100	Violations – Penalty

15.04.010 Codes Adopted

Pursuant to Section 50022.2 of the California Government Code, the following codes are adopted by reference as defined herein and as adopted and amended by the State Building Standards Commission under Title 24, including the amendments listed in this chapter which are made pursuant to the findings of fact set forth in the adopting ordinance:

- A. California Administrative Code Title 24 Part 1, 2016 Edition, promulgated and published by the International Code Council;
- B. California Building Code Title 24 Part 2 Volumes 1 & 2, 2016 Edition, including; Chapter 1 Division II and Appendix Chapter J, as amended, promulgated and published by the International Code Council;
- C. California Residential Code Title 24 Part 2.5, 2016 Edition, including Chapter 1 Division II as amended, promulgated and published by the International Code Council;
- D. California Electrical Code Title 24 Part 3, 2016 Edition, with tables, as amended, promulgated and published by the National Fire Protection Association;
- E. California Mechanical Code Title 24 Part 4, 2016 Edition, and standards, as amended, promulgated and published by the International Association of Plumbing and Mechanical Officials;
- F. California Plumbing Code Title 24 Part 5, 2016 Edition, and standards, as amended promulgated and published by the International Association of Plumbing and Mechanical Officials;

- G. California Energy Code Title 24 Part 6, 2016 Edition, promulgated and published by the International Code Council;
- H. California Historical Building Code Title 24 Part 8, 2016 Edition, promulgated and published by the International Code Council;
- I. California Existing Building Code Title 24 Part 10, 2016 Edition, as amended, promulgated and published by the International Code Council;
- J. California Green Building Standards Code Title 24 Part 11, 2016 Edition, as amended, promulgated and published by the International Code Council;
- K. California Referenced Standards Code Title 24 Part 12, 2016 Edition, promulgated and published by the International Code Council;
- L. International Property Maintenance Code, 2015 Edition, promulgated and published by the International Code Council

15.04.020 California Building Code (CBC) Amendments

CBC Chapter 1, Division I, Section 1.8.8.1 Appeals Board General; is amended to add the following:

The local appeals board and housing appeals board shall be the City of Healdsburg Planning Commission.

CBC Chapter 1, Division I, Section 1.8.8.3 Appeals; is amended to add the following:

The appellant must fill out the “City of Healdsburg Request for hearing” form and pay an appeals processing fee of \$250. The appellant shall attach a written statement describing the circumstances of the appeal and include any evidence that he/she would like presented at the hearing. The Building Official will schedule the appeal for the next available Planning Commission meeting.

CBC Chapter 1, Division II Administration; is adopted in its entirety and amended as follows:

CBC Chapter 1, Division II, Section 105.2 Work exempt from permit, Building; (1) is amended to read as follows:

One story detached accessory structures used as tool and storage sheds, playhouses, and similar uses, provided the floor area is not greater than 120 square feet and the structure contains no plumbing facilities, electrical circuits or heating appliances.

CBC Chapter 1, Division II, Section 105.2 Work exempt from permit, Building; (4) is amended to read as follows:

Retaining walls that are not over 4 feet in height measured from the bottom of the footing to the top of the wall, unless; supporting a surcharge, impounding Class I, II or IIIA liquids, or when retaining walls are located within 3 feet from a public right-of-way.

CBC Chapter 1, Division II, Section 105.2 Work exempt from permit, Building; (7) is amended to read as follows:

Painting, papering, tiling, carpeting, cabinets, and similar finish work.

CBC Chapter 1, Division II, Section 105.2 Work exempt from permit, Building; (14) is added as follows:

Decks not exceeding 200 square feet in area, that are not more than 30 inches above grade at any point, are not attached to a one-family dwelling, two-family dwelling, efficiency dwelling unit, or townhouse and do not serve the exit door required by CRC Section R311.4.

CBC Chapter 1, Division II, Section 105.3.2 Time limitations of applications; is amended as follows:

An application for a permit for any proposed work shall be deemed to have been abandoned 180 days after the date of filing, unless such application has been pursued in good faith or a permit has been issued; except that the Building Official is authorized to grant in writing, one extension of time for an additional period not exceeding 180 days. The extension shall be requested in writing and justifiable cause demonstrated. No application shall be extended more than once. In order to renew action on an application after expiration, the applicant shall resubmit plans and pay a new plan review fee.

CBC Chapter 1, Division II, Section 105.5 Expiration; is amended as follows:

Every permit issued shall become invalid unless the work on the site authorized by such permit is commenced within 180 days after its issuance, or if the work authorized on site by such permit is suspended or abandoned for a period of 180 days after the time the work is commenced. The Building Official is authorized to grant, in writing, one extension of time, for a period not more than 180 days from the date of the extension request. The extension shall be requested in writing and justifiable cause demonstrated. No permit shall be extended more than once. A permittee holding an unexpired permit shall be allowed to apply for an extension of the time within which work shall be allowed to commence under that permit.

Before work is recommenced on an expired permit, the permit shall first be reactivated to do so, and the fee therefore shall be one-half the amount required for a new permit for such work, provided such expired permit has not exceeded 1 year and provided further that no changes have been made or will be made in the original construction documents for such work. In order to renew action on a permit after expiration exceeding 1 year, the permittee shall obtain a new permit and pay new full permit fees.

Building permit construction activity, including under permits that are reactivated, the permits are limited to a maximum term of 3 years from the date of issuance of the original permit. When requested in writing of the Building Official, a maximum of one 180 day extension may be granted in excess of 3 years when justifiable cause is demonstrated. Ongoing construction activity occurring beyond the term limit is prohibited and the permit shall be expired. In order to renew action on a permit after term limit expiration, the permittee shall obtain a new permit and pay new full permit fees.

CBC Chapter 1, Division II, 109.4 Work commencing before permit issuance: is amended as follows:

Any person who commences any work on a building, structure, electrical, gas, mechanical or plumbing system before obtaining the necessary permits shall be subject to a fee equal to two times the amount of normal permit fee for that work, and shall be in addition to the normal permit fee as specified in the Master Fee Schedule Resolution.

CBC Chapter 1, Division II, Section 116.4.1 Unauthorized tampering; is added as follows:

Notices, signs, tags or seals posted or affixed by the Building Official shall not be mutilated, destroyed or tampered with, or removed without obtaining prior authorization from the Building Official. Any violation shall be subject to penalties as prescribed by law.

CBC Chapter 2, Section 202 Definitions; Alteration of Floor Area, Substantial Addition, Substantial Addition-Group R-3, and Substantial Remodel, is amended by adding the following:

ALTERATION OF FLOOR AREA. For the purpose of this definition, the following criteria shall be considered in determining the percentage of “alteration of floor area.” The 50% referred to under “Substantial Remodel” applies to the entire building’s gross floor area in plan view. The entire room or space where the remodel is taking place will be considered in the calculation, either alone or in combination with any of the following:

- a. Removing wall finishes and exposing framing of;
 - Interior wall (where finishes are removed from one side only the room or space to which the framing is exposed will be included in the calculation).
 - Perimeter exterior wall (one or both sides).

- b. New wall construction, removing, or repositioning, either interior or perimeter exterior walls, the rooms or spaces on both sides of the wall will be included in the calculation.
- c. Removal of the ceiling in any room or space to expose rafters trusses, beams, purlins, or floor joists. The floor joists must be within a floor/ceiling assembly.
- d. Removal of the roof structure (only rooms or spaces that are directly below the removed roof structure will be included in the calculation).
- e. Other alterations considered substantial by the Fire Code Official (see DSA-AC definition of “Alteration” in the 2016 California Building Code).
- f. In the non-residential portion of multi-tenant buildings, individual tenant space improvements in which the space is reduced to a “shell” condition, shall require that the future tenant improvement comply with these fire sprinkler requirements.

Items g, h, and i, are not to be included in the alteration of floor area calculation:

- g. Partial removal of wall finishes necessary for repair due to flooding.
- h. Removal of floor finishes which exposes floor framing and/or the removal of concrete slab, unless part of a floor/ceiling assembly.
- i. Relocating plumbing fixtures in bathrooms and/or kitchen.

SUBSTANTIAL ADDITION. All existing buildings or structures not classified as Group R-3 occupancy, any addition of floor area that is greater than twenty-five percent (25%) of the existing gross floor area.

SUBSTANTIAL ADDITION, Group R-3. In all existing Group R-3 buildings or structures, any addition of floor area that exceeds fifty percent (50%) of the existing gross floor area.

SUBSTANTIAL REMODEL. In all existing buildings or structures, any alteration of floor area that is greater than fifty percent (50%) of the existing gross floor area or meets the definition of a substantial improvement as defined by the 2016 California Building Code.

CBC Chapter 9, Section 903.6, Fire Sprinklers - Where required in existing buildings and structures; is added to read as follows:

An automatic sprinkler systems shall be provided throughout existing buildings and structures where required in Sections 903.6.1 through 903.6.3, as determined by the Fire Marshal.

CBC Section 903.6.1, Substantial remodel; is added to read as follows:

An automatic sprinkler system shall be provided throughout all buildings that undergo a substantial remodel or substantial improvement.

Exceptions:

1. Detached Group U occupancies 1000 sq. ft. or less.
2. Agricultural buildings and private riding arenas as approved by the fire or building code official.
3. Detached pool houses up to 1000 sq. ft. in floor area within 50 feet of the pool and limited to a single bathroom.
3. Detached non-combustible motor vehicle fuel dispensing canopies classified as a Group M occupancy.
4. Detached carports of non-combustible construction with no habitable space above.
6. Alterations or additions made solely for the purpose of complying with the Americans with Disabilities Act (ADA) or as contained in CBC Chapters 11A or 11B.
7. Whenever there are practical difficulties involved the Fire Code Official shall have the authority to grant modifications in individual cases provided the modifications do not lessen the health, life and fire safety requirements as permitted in Section 104.8.

CBC 903.6.2 Substantial addition; is added to read as follows:

An automatic sprinkler system shall be provided throughout all buildings that undergo a substantial addition.

CBC 903.6.3 Substantial remodels and additions; is added to read as follows:

An automatic sprinkler system shall be provided throughout all buildings that undergo any combination of substantial remodel, addition or both that equals fifty percent (50%) of the existing gross floor area.

CBC Chapter 15, Section 1505.1.3 Roof coverings within all other areas; is amended to read as follows:

The entire roof covering of every existing structure, where more than 50 percent of the total roof area is replaced within any one-year period, the entire roof covering of every new structure, and any roof covering applied in the alteration, repair or replacement of the roof of every existing structure, shall be a fire-retardant roof covering that is at least Class A.

CBC Chapter 31, Section 3109.4.4.2 Construction Permit; Safety features required; is amended to include:

Barrier required for private swimming pools. The barrier shall be specifically designed to prevent unauthorized entry from adjacent private and/or public property. Every person who owns or is in possession of any land on which there is situated a private swimming pool shall secure the pool from unauthorized entry by a barrier constructed as an enclosure that meets or exceeds the requirements of CBC 3109.4.4.3. The barrier shall be in addition to the "seven drowning prevention safety features" required by CBC 3109.4.4.2.

CBC Chapter 31, Section 3109.4.4.2.1 Safety features required, Existing swimming pools and spas; is added:

Except as provided in CBC 3109.4.4.5, any person who owns or is in possession of an existing swimming pool or spa, at a private, single-family home, that does not conform to the requirements of CBC 3109.4.4.2, shall make the pool conform to the requirements of this section within ninety (90) days from its effective date.

Exceptions: If it is secured from unauthorized entry by a natural or artificial barrier that provides the same or a greater degree of protection than would an enclosure. An application for exception shall be filed in writing with the Building Official. The application shall contain a statement evidencing that the applicant is entitled to the exception and such other information as the Building Official may prescribe.

CBC Appendix J, a new Section J104.1.1 is added to read:

GRADING PERMIT REQUIREMENTS

Grading Designation. Grading in excess of 5,000 cubic yards (3825 m³) shall be performed in accordance with the approved grading plan prepared by a civil engineer, and shall be designated as "engineered grading." Grading involving less than 5,000 cubic yards (3825 m³) shall be designated "regular grading" unless the permittee chooses to have the grading performed as engineered grading, or the city engineer determines that

special conditions or unusual hazards exist, in which case grading shall conform to the requirements for engineered grading.

Engineered Grading Requirements. Application for a grading permit shall be accompanied by two sets of plans and specifications, and supporting data consisting of a soils engineering report and engineering geology report. The plans and specifications shall be prepared and signed by an individual licensed by the state to prepare such plans or specifications when required by the city engineer.

Specifications shall contain information covering construction and material requirements.

Plans shall be drawn to scale and shall be of sufficient clarity to indicate the nature and extent of the work proposed and show in detail that the work will conform to the provisions of this code and all relevant laws, ordinances, rules and regulations. The first sheet of each set of plans shall give the location of the work, the name and address of the owner, and the person by whom they were prepared.

The plans shall include the following information:

1. General vicinity of the proposed site.
2. Property limits and accurate contours of existing ground and details of terrain and area drainage.
3. Limiting dimensions, elevations or finish contours to be achieved by the grading, and proposed drainage channels and related construction.
3. Detailed plans of all surface and subsurface drainage devices, walls, cribbing, dams and other protective devices to be constructed with, or as a part of, the proposed work, together with a map showing the drainage area and the estimated runoff of the area served by any drains.
5. Location of any buildings or structures on the property where the work is to be performed and the location of any buildings or structures on land of adjacent owners that are within 15 feet (4572 mm) of the property or that may be affected by the proposed grading operations.
6. Recommendations included in the soils engineering report and the engineering geology report shall be incorporated in the grading plans or specifications. When approved by the city engineer, specific recommendations contained in the soils engineering report and the engineering geology report, that are applicable to grading, may be included by reference.

7. The dates of the soils engineering and engineering geology reports together with the names, addresses and phone numbers of the firms or individuals who prepared the reports.

Regular Grading Requirements. Each application for a grading permit shall be accompanied by a plan in sufficient clarity to indicate the nature and extent of the work to be performed. The plans shall give the location of the work, the name of the owner and the name of the person who prepared the plan. The plan shall include the following information:

1. General vicinity of the proposed site.
2. Limiting dimensions and depth of cut and fill.
3. Location of any buildings or structures where work is to be performed, and the location of any buildings or structures within 15 feet (4572 mm) of the proposed grading.

The city engineer may require that grading operations and project designs be modified if delays occur that subsequently experience weather-generated problems not considered at the time the permit was issued. The city engineer may require professional inspection and testing by the soils engineer. When the city engineer has cause to believe that geologic factors may be involved, the grading will be required to conform to engineered grading.

15.04.030 California Residential Code (CRC) Amendments

CRC Chapter 1, Division I, Section 1.8.8.1 Appeals Board General; is amended to add the following:

The local appeals board and housing appeals board shall be the City of Healdsburg Planning Commission.

CRC Chapter 1, Division I, Section 1.8.8.3 Appeals; is amended to add the following:

The appellant must fill out the “City of Healdsburg Request for hearing” form and pay an appeals processing fee of \$250. The appellant shall attach a written statement describing the circumstances of the appeal and include any evidence that he/she would like presented at the hearing. The Building Official will schedule the appeal for the next available Planning Commission meeting.

CRC Chapter 1, Division II, Administration; Section R101 General; is adopted.

CRC Chapter 1, Division II, Administration; Section R102 through Section R114; is deleted and replaced with CBC Chapter 1, Division II Scope and Administration; Section 102 through Section 116 as amended.

CRC Chapter 2, Section R202 Definitions; Alteration of Floor Area, Substantial Addition-Group R-3, and Substantial Remodel, is amended by adding the following:

ALTERATION OF FLOOR AREA. For the purpose of this definition, the following criteria shall be considered in determining the percentage of “alteration of floor area.” The 50% referred to under “Substantial Remodel” applies to the entire building’s gross floor area in plan view. The entire room or space where the remodel is taking place will be considered in the calculation, either alone or in combination with any of the following:

- a. Removing wall finishes and exposing framing of;
 - Interior wall (where finishes are removed from one side only the room or space to which the framing is exposed will be included in the calculation).
 - Perimeter exterior wall (one or both sides).
- b. New wall construction, removing, or repositioning, either interior or perimeter exterior walls, the rooms or spaces on both sides of the wall will be included in the calculation.
- c. Removal of the ceiling in any room or space to expose rafters trusses, beams, purlins, or floor joists. The floor joists must be within a floor/ceiling assembly.
- d. Removal of the roof structure (only rooms or spaces that are directly below the removed roof structure will be included in the calculation).
- e. Other alterations considered substantial by the Fire Code Official (see DSA-AC definition of “Alteration” in the 2016 California Building Code).

Items f, g, and h, are not to be included in the alteration of floor area calculation:

- f. Partial removal of wall finishes necessary for repair due to flooding.
- g. Removal of floor finishes which exposes floor framing and/or the removal of concrete slab, unless part of a floor/ceiling assembly.
- h. Relocating plumbing fixtures in bathrooms and/or kitchen.

SUBSTANTIAL ADDITION. All existing buildings or structures not classified as Group R-3 occupancy, any addition of floor area that is greater than twenty-five percent (25%) of the existing gross floor area.

SUBSTANTIAL ADDITION, Group R-3. In all existing Group R-3 buildings or structures, any addition of floor area that exceeds fifty percent (50%) of the existing gross floor area.

SUBSTANTIAL REMODEL. In all existing buildings or structures, any alteration of floor area that is greater than fifty percent (50%) of the existing gross floor area or meets the definition of a substantial improvement as defined by the 2016 California Building Code.

CRC Chapter 3, Section R313.1, Townhouse automatic fire sprinkler systems; Exception; is amended to read as follows:

Exception: An automatic residential fire sprinkler system shall not be required where additions or alterations are made to existing townhouses that do not have an automatic residential fire sprinkler system installed unless the Fire Marshal determines that the project constitutes a substantial addition and/or a substantial remodel pursuant to Sections R313.1.2 through R313.1.4, and an automatic sprinkler systems shall be provided throughout the townhouse.

CRC Section R313.1.2, Substantial remodel; is added to read as follows:

An automatic sprinkler system shall be provided throughout all buildings that undergo a substantial remodel or substantial improvement.

Exceptions:

1. Detached Group U occupancies 1000 sq. ft. or less.
2. Agricultural buildings and private riding arenas as approved by the fire or building code official.
3. Detached pool houses up to 1000 sq. ft. in floor area within 50 feet of the pool and limited to a single bathroom.
4. Detached carports of non-combustible construction with no habitable space above.
5. Partial removal of wall or floor finishes necessary for repair due to flooding.
6. Whenever there are practical difficulties involved the Fire Code Official shall have the authority to grant modifications in individual cases provided the modifications do not lessen the health, life and fire safety requirements as permitted in CFC Section 104.8.

CRC R313.1.3 Substantial addition; is added to read as follows:

An automatic sprinkler system shall be provided throughout all buildings that undergo a substantial addition.

CRC R313.1.4 Substantial remodels and additions; is added to read as follows:

An automatic sprinkler system shall be provided throughout all buildings that undergo any combination of substantial remodel, addition or both that equals fifty percent (50%) of the existing gross floor area.

CRC Chapter 3, Section R313.2, One- and two-family dwellings automatic fire sprinkler systems; Exception; is amended to read as follows:

Exception: An automatic residential fire sprinkler system shall not be required where additions or alterations are made to existing buildings that are not already provided with an automatic residential fire sprinkler system unless the Fire Marshal determines that the project constitutes a substantial addition and/or a substantial remodel pursuant to Sections R313.2.2 through R313.2.4, and an automatic sprinkler systems shall be provided throughout the building.

CRC Section R313.2.2, Substantial remodel; is added to read as follows:

An automatic sprinkler system shall be provided throughout all buildings that undergo a substantial remodel or substantial improvement as determined by the Fire Marshal.

Exceptions:

1. Detached Group U occupancies 1000 sq. ft. or less.
2. Agricultural buildings and private riding arenas as approved by the fire or building code official.
3. Detached pool houses up to 1000 sq. ft. in floor area within 50 feet of the pool and limited to a single bathroom.
4. Detached carports of non-combustible construction with no habitable space above.
5. Partial removal of wall or floor finishes necessary for repair due to flooding.
6. Whenever there are practical difficulties involved the Fire Code Official shall have the authority to grant modifications in individual cases provided the modifications do not lessen the health, life and fire safety requirements as permitted in CFC Section 104.8.

CRC R313.2.3 Substantial addition; is added to read as follows:

An automatic sprinkler system shall be provided throughout all buildings that undergo a substantial addition as determined by the Fire Marshal.

CRC R313.2.4 Substantial remodels and additions; is added to read as follows:

An automatic sprinkler system shall be provided throughout all buildings that undergo any combination of substantial remodel, addition or both that equals fifty percent (50%) of the existing gross floor area as determined by the Fire Marshal.

CRC Chapter 9, Section R902.1.3 Roof coverings in all other areas; is amended to read as follows:

The entire roof covering of every existing structure, where more than 50 percent of the total roof area is replaced within any one-year period, the entire roof covering of every new structure, and any roof covering applied in the alteration, repair or replacement of the roof of every existing structure, shall be a fire-retardant roof covering that is at least Class A.

15.04.040 California Electrical Code (CEC) Amendments

CEC Article 89, General Code Provisions; 89.108.8.1 Appeals Board General; is amended to add the following:

The local appeals board and housing appeals board shall be the City of Healdsburg Planning Commission.

CEC Article 89, General Code Provisions; 89.108.8.3 Appeals; is amended to add the following:

The appellant must fill out the “City of Healdsburg Request for hearing” form and pay an appeals processing fee of \$250. The appellant shall attach a written statement describing the circumstances of the appeal and include any evidence that he/she would like presented at the hearing. The Building Official will schedule the appeal for the next available Planning Commission meeting.

CEC Article 90, Introduction; is amended by adding Article 90.10 to include CBC Chapter 1, Division II Scope and Administration; Section 102 through Section 116 as amended.

15.04.050 California Mechanical Code (CMC) Amendments

CMC Chapter 1, Division I, Section 1.8.8.1 Appeals Board General; is amended to add the following:

The local appeals board and housing appeals board shall be the City of Healdsburg Planning Commission.

CMC Chapter 1, Division I, Section 1.8.8.3 Appeals; is amended to add the following:

The appellant must fill out the “City of Healdsburg Request for hearing” form and pay an appeals processing fee of \$250. The appellant shall attach a written statement describing

the circumstances of the appeal and include any evidence that he/she would like presented at the hearing. The Building Official will schedule the appeal for the next available Planning Commission meeting.

CMC Chapter 1, Division II, Administration; Section 101 General; is adopted.

CMC Chapter 1, Division II, Administration; Section 102 through Section 107; is deleted and replaced with CBC Chapter 1, Division II Scope and Administration; Section 102 through Section 116 as amended.

15.04.060 California Plumbing Code (CPC) Amendments

CPC Chapter 1, Division I, Section 1.8.8.1 Appeals Board General; is amended to add the following:

The local appeals board and housing appeals board shall be the City of Healdsburg Planning Commission.

CPC Chapter 1, Division I, Section 1.8.8.3 Appeals; is amended to add the following:

The appellant must fill out the “City of Healdsburg Request for hearing” form and pay an appeals processing fee of \$250. The appellant shall attach a written statement describing the circumstances of the appeal and include any evidence that he/she would like presented at the hearing. The Building Official will schedule the appeal for the next available Planning Commission meeting.

CPC Chapter 1, Division II, Administration; Section 101 General; is adopted.

CPC Chapter 1, Division II, Administration; Section 102 through Section 107; is deleted and replaced with CBC Chapter 1, Division II Scope and Administration; Section 102 through Section 116 as amended.

15.04.070 California Existing Building Code (CEBC) Amendments

CEBC Chapter 1, Division I, Section 1.8.8.1 Appeals Board General; is amended to add the following:

The local appeals board and housing appeals board shall be the City of Healdsburg Planning Commission.

CEBC Chapter 1, Division I, Section 1.8.8.3 Appeals; is amended to add the following:

The appellant must fill out the “City of Healdsburg Request for hearing” form and pay an appeals processing fee of \$250. The appellant shall attach a written statement describing the circumstances of the appeal and include any evidence that he/she would like presented at the hearing. The Building Official will schedule the appeal for the next available Planning Commission meeting.

CEBC Chapter 1, Scope and Administration, Part 1 Scope and Application; Section 101 General; is adopted.

CEBC Chapter 1, Sections 102 through Section 117; is deleted in its entirety, and replaced with CBC Chapter 1, Division II Scope and Administration; Sections 102 through Section 116 as amended.

15.04.080 California Green Building Standards Code (CGBC) Amendments.

CGBC Chapter 3, Green Building, Section 301.1.1, Additions and alterations, is amended to read as follows:

The mandatory provisions of Chapter 4 shall be applied to additions or alterations of existing residential buildings where the addition or alteration increases the building's conditioned area, volume, or size, or residential buildings of any size where it is determined by the Building Official that the alteration constitutes a substantial remodel. The requirements shall only apply to and/or within the specific area of the addition or alteration.

CGBC Chapter 3, Green Building, Section 301.3, Nonresidential additions and alterations, is amended to read as following:

The provisions of individual sections of Chapter 5 apply to newly constructed buildings, building additions of 1,000 square feet or greater, and/or building alterations with a permit valuation of \$200,000 or above, or conversion of 1,000 square feet or more of non-residential unconditioned space into occupiable space and/or conditioned space (for occupancies within the authority of California Building Standards Commission). Code sections relevant to additions and alterations shall only apply to the portion of the building being added or altered within the scope of the permitted work.

CGBC Chapter 3, Green Building, Section 301.6, Appendix Chapter A-4 Tier 1, is added and amended to read as follows:

The provisions of Appendix Chapter A-4 Tier 1, shall apply to all newly constructed; low-rise residential building over 3,000 square feet in conditioned floor area, and any high-rise residential building. The 3,000 square feet in conditioned floor area measurement is the cumulative amount and includes detached accessory structures, and combines the floor areas of detached single family residential dwellings in subdivision development construction projects or condominium construction projects that apply for building permits after the effective date of this amendment. Tier 1 provisions do not apply to common wall duplex or common wall multi-family residential buildings. Substantially remodeled buildings shall be considered newly constructed as determined by the Building Official, and shall comply with Tier 1 if the residential building is over 3,000 square feet in conditioned floor area.

CGBC Chapter 3, Green Building, Section 301.7, Appendix Chapter A-5 Tier 1, is added and amended to read as follows:

The provisions of Appendix Chapter A-5 Tier 1, shall apply to all newly constructed non-residential buildings over 10,000 square feet in area. Substantially remodeled buildings shall be considered newly constructed as determined by the Building Official, and shall comply with Tier 1 if the non-residential building is over 10,000 square feet in area. When Appendix Chapter A-5 Tier 1 is applied to the shell building of a phased project, each initial tenant improvement shall also comply with Tier 1 regardless of the size tenant improvement area (only applicable to the initial tenant improvement to a project). The 10,000 square feet in area measurement is the cumulative amount of all buildings on a parcel and/or projects consisting of commercial condominiums.

15.04.090 International Property Maintenance Code (IPMC) Amendments

IPMC Chapter 1, Scope and Administration, Part 1 Scope and Application; Section 101 General; is adopted.

IPMC Chapter 1, Sections 102 through Section 112; is deleted and replaced with CBC Chapter 1, Division II Scope and Administration; Sections 102 through Section 116 as amended.

15.04.100 Violations - Penalty

- A. Every person who violates any provision of this chapter shall be guilty of a misdemeanor, punishable by a fine of not more than \$1,000.00 and/or imprisonment of up to six (6) months. A person is guilty of a separate offense for each day during which he/she commits, or continues or permits a violation of this chapter, or each time he/she disobeys a valid order of an enforcement officer.

- B. In addition to any other enforcement remedies available to the City under any applicable state or federal statute or pursuant to any other lawful power the City may possess, any violation of this chapter may be prosecuted or enforced as a nuisance pursuant to City of Healdsburg Municipal Code section 1.12. The City may also prosecute or enforce violations of this chapter as a criminal offense or by civil court action, prosecuted by the City Attorney in the name of the City or in the name of the people of the State of California, by seeking the appointment of a receiver, or in any other manner provided by law.

SECTION 4. COMPLIANCE WITH CALIFORNIA ENVIRONMENTAL QUALITY ACT

The City Council finds that this Ordinance is not subject to the California Environmental Quality Act (“CEQA”) pursuant to Sections 15060(c)(2) (the activity will not result in a direct or reasonably foreseeable indirect physical change in the environment) and 15060(c)(3) (the

activity is not a project as defined in Section 15378) of the CEQA Guidelines because it has no potential for resulting in physical change to the environment, directly or indirectly.

SECTION 5. SEVERABILITY

If any provision of this Ordinance or the application thereof to any person or circumstances is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction or preempted by state legislation, such decision or legislation shall not affect the validity of the remaining portions of this Ordinance. The City Council hereby declares that it would have passed this Ordinance and each and every section, subsection, sentence, clause or phrase hereof not declared invalid or unconstitutional without regard to any such decision or preemptive legislation.

SECTION 6. EFFECTIVE DATE AND PUBLICATION

This ordinance of the City of Healdsburg shall be effective thirty (30) days after the date of its passage and its provisions shall become applicable on January 1, 2017. Before the expiration of fifteen (15) days after its passage, this ordinance, or a summary thereof as provided in California Government Code Section 36933, shall be published at least once in a newspaper of general circulation published and circulated in the City of Healdsburg, along with the names of the members of the City Council voting for and against its passage.

INTRODUCED by the City Council of the City of Healdsburg on the 7th day of November, 2016, and PASSED and APPROVED on the 5th day of December, 2016 at a regular meeting, by the following vote:

AYES: Councilmembers: (5) Mansell, McCaffery, Plass, Ziedrich and Mayor Chambers

NOES: Councilmembers: (0) None

ABSENT: Councilmembers: (0) None

ABSTAINING: Councilmembers: (0) None

SO ORDERED:
