The City of Healdsburg Plug-In Electric Vehicle Discount Program

Providing Qualifying Residential Utility Customers with Discounted Electric Rates

Dear Applicant,

Thank you for your recent inquiry regarding the City of Healdsburg Plug-In Electric Vehicle Discount Program. Per your request, please find attached the discount Application, program qualifications, conditions and terms.

Once the application has been completed & signed, please return it along with all required registration verification to:

City of Healdsburg
Attn: Utility Billing Department
Plug-In Electric Vehicle Discount Program
401 Grove Street
Healdsburg, CA 95448-4723

Please note, any documentation submitted for determination of eligibility will not be returned to the applicant, regardless of results.

If approved, the discount will be effective upon installation of a TOU (Time of Use) meter by the City's Utility Department and valid up until expiration of your current vehicle registration. A copy of your renewed vehicle registration will be required each subsequent year prior to expiration to avoid a lapse. Discounts are not retroactive and limited to one discount per residential electric account.

If you have any questions regarding the City's Plug-In Electric Vehicle Discount Program, please contact Utility Customer Service at (707) 431-3307.

Kind Regards,

Katherine Ahlborn
Utility Billing Supervisor

The City of Healdsburg Plug-In Electric Vehicle Discount Program

Providing Qualifying Residential Utility Customers with Discounted Electric Rates

What is Healdsburg's Electric Vehicle Discount Program?

While many cities do not offer a discount program to their residential utility customers who own plug-in electric vehicles, the City of Healdsburg Council adopted Resolution #55-2013 which provides for a 15% discount on electric rates for qualifying customers.

Under the California Global Warming Solutions Act of 2006 (AB 32), the California Air Resource Board (CARB) established a Cap & Trade Auction Program. The City of Healdsburg has been granted freely allocated carbon allowances that can be sold in CARB sponsored auctions and the revenues used consistent with the goals of AB 32 and exclusively for the benefit of Healdsburg's electric ratepayers. The Plug-In Electric Vehicle Discount Program is one of the ways the City is using the auction revenues in support of promoting the purchase of electric vehicles further reducing GHG and benefitting Healdsburg's electric customers.

You are likely to qualify for the Electric Vehicle Discount program if:

- You have a current City of Healdsburg electric utility account in your name,
- You have a current copy of the paid DMV registration for a **plug-in** Electric Vehicle AND
- It is licensed to the electric utility account holders name and service address.

Conditions for Participation:

- The program only applies to City of Healdsburg residential electric utility customers.
- The program is limited to one (1) vehicle per service location.
- The utility services must be in the program applicant's/registered owner's name.
- Discount benefits DO NOT transfer to a new residence when/if applicant moves. A new application is required.
- Current proof of the DMV Vehicle Registration must be provided and indicate the dates/period covered.
- Participants must notify the City of Healdsburg within 30 days if the qualifying vehicle is sold.
- The City of Healdsburg's Plug-In Electric Vehicle Discount program is not an entitlement program.
- Discounts will be offered only as long as appropriate resolutions are in effect, as may be modified from time to time, and applicants are deemed eligible.
- Fraud and/or misrepresentation of facts for the purposes of qualifying for the Plug-In Electric Vehicle Discount Program can result in disqualification of the discount and criminal prosecution to recover prior discounts provided.

Program Terms:

- Once the initial application is approved, if the applicant is not already on a TOU (Time of Use) rate, the customer will be switched to a TOU rate and a new meter installed by the City's Utility Department. The time of use rate is required to encourage charging vehicles at night, avoiding higher cost peak-time energy prices.
- A copy of the renewed vehicle registration is required each subsequent registration year to avoid a discount lapse. It is the applicant's responsibility to re-apply. Discounts will cease upon expiration of the current registration unless a copy of the renewed registration is received by the City's Utility Billing department in advance of expiration. Discounts are not retroactive.
- Incomplete applications will be denied pending resubmission of a fully completed version.
