

Blower Door Guided Air Sealing Rebate Application

\$50 Per Home

Subject to availability of funds.
Additional rebates may be available from your gas company

Program Requirements

- Single-family and multi-family residences must have a permanently installed ducted central AC or electric heat system capable of heating or cooling the entire dwelling. If your house uses gas for heating, additional rebates may be available through your gas provider
- Installation must occur at a City of Healdsburg electric service address
- Post-work test data must show a 15% reduction in air leakage from pre-work test data to qualify for this rebate
- The work under this program must have occurred within the past 12-months
- New systems installed, absent prior equipment, do not qualify for rebates due to equivalent performance requirements present in state building codes
- All work is subject to validation prior to payment. Refusal to allow City of Healdsburg to perform an on-site validation of the work can result in denial of the rebate.

Date of Work							

To receive this rebate, you must submit the following documents:

To the City at address:

- This form (both pages, completed and signed)
- A copy of your final invoice (dated within the past 12 mo.)
- The attached "Air Sealing Installation Certificate"

City of Healdsburg
 Attn: Electric Department EE
 401 Grove Street
 Healdsburg, CA 95448-4723

By signing this agreement, customer acknowledges the following:

This rebate offer may be changed or discontinued at any time by the City of Healdsburg (City) and is available on a first-come first-serve basis while funds are available. City reserves the right to inspect completed work. Rebates will be paid only on work that meets City standards and specifications. Customer certifies that they and their technicians are familiar with, and agree to, the standards regarding this program. Customer acknowledges that the City is in no way responsible for the satisfactory performance or safety of the equipment included in this program. City disclaims any warranty, whether expressed or implied, for any materials or labor associated with installation, maintenance, repair, or any energy savings associated with the measures. City is released from any liability resulting from participation in this program. Customer agrees that this information may be shared with other utilities as well as included in various reports.

I certify that the eligible energy efficiency measures were performed at a valid City of Healdsburg electric service address.

Air Sealing Test Information					
Blower door test data must be entered before and after air sealing to show a reduction in air leakage.					
	House Pressure (Pa)	Fan Configuration (rings or other restrictors)	Fan Pressure	Can't Reach 50 Factor	House Leakage Rate
PRE-TEST					
POST-TEST					
CFM50 Reduction (before – after)			Percent Reduction (Reduction / before)	%	
Blower Door Mfr.			Model Number		
List in detail which air-sealing measures were installed (i.e. sealed bypasses, plumbing/electrical penetrations in wall, attic, floor, etc.):					

Testing and Sealing must meet the following minimum requirements:

- Equipment and gauges must be maintained and calibrated according to manufacturers' recommendations. Technician may be required to show evidence of required maintenance or calibration procedures.
- House leakage must be tested and reported in CFM, at a house pressure of 50 Pa with respect to outdoors. If house cannot be pressurized to 50 Pa, a lower pressure may be used and multiplied by a "can't reach 50" factor supplied by the equipment manufacturer. The "can't reach 50" multiplier must be shown on this form.
- Test procedures must be conducted by a certified PATS Technician, HERS Rater or BPI Technician, or as approved by the utility.
- Testing and sealing must be performed in accordance with PATS, HERS, or BPI standards. Mechanical ventilation may be required.

I certify that the above test data is accurate and that measurements were done in compliance with standards applicable to the certification below.
