CITY OF HEALDSBURG
CITY COUNCIL AGENDA STAFF REPORT

MEETING DATE: February 18, 2025

SUBJECT: To Start at a Time Certain of 6:30 p.m. - Third Public Hearing to Receive Community Input and Provide Direction to Staff Regarding the Submitted Draft Maps and Sequence of Elections for District Based Elections

PREPARED BY: Raina Allan, City Clerk

STRATEGIC INITIATIVE(S):
Provide Effective Governance

RECOMMENDED ACTION(S):
Conduct the third public hearing to receive community input and provide direction to staff regarding the submitted draft maps and sequence of elections for district-based council elections.

COMMUNITY ENGAGEMENT/OUTREACH:
Outreach for this effort includes posting on social media channels, including Facebook, Instagram and Nextdoor. The City has also shared information on the City's website and in the bi-weekly City Manager's Update. Informational pamphlets have been distributed to each City facility in English and Spanish as well as an insert that was included in the December utility bills. A dedicated webpage has been created on the City's website at https://healdsburg.gov/1152/Transition-to-District-Elections. Information is available to the public with background information about the districting process, upcoming hearing dates, and supporting documents. This webpage is being continuously updated with dates and locations where community members can share their feedback on this issue. The website also features a virtual mapping tool which community members have been utilizing to draw their own district boundaries and a feature allowing submission of community interest forms. Information will be provided in both English and Spanish. The City held a community meeting on January 16, 2025 at the Community Center, met with the senior community on January 24, 2025 at the Senior Center and the City Manager held a meeting with the Spanish-speaking community on January 28, 2025 to gather feedback on the process. The City has partnered with Corazón Healdsburg to assist with the outreach to the Spanish-speaking community. Both public hearings and community meetings will continue to include live interpretation services.

BACKGROUND:
The California Voting Rights Act (CVRA) was enacted in 2001, in part, to provide minority

groups in California with tools to prevent dilution of votes in "at-large" election systems – meaning each Councilmember is elected by the registered voters of the entire City. The CVRA prohibits any at-large voting system that hinders the ability of a protected class to elect candidates of its choice or influence the outcome of an election. A violation of the CVRA is established if racially polarized voting occurs in elections for Councilmembers or other matters submitted to the voters.

The CVRA does not require showing that the City, the voters, or the elected officials intended to discriminate against a protected class. Similarly, the fact that members of a protected class are not geographically concentrated does not preclude a finding of racially polarized voting. Instead, a violation of the CVRA may be established by showing that both racially polarized voting and dilution occur in elections for members of the governing body. Dilution can be shown where the protected class can show that the at-large election prevents them from electing, either on their own or with the support of crossover voters, their preferred candidate.

The City of Healdsburg currently elects its Councilmembers at-large. On October 3, 2024, the City received a letter from a potential plaintiffs' attorney, Shenkman & Hughes PC, alleging a violation of the CVRA and threatening litigation unless the City voluntarily transitions to a district-based election system for electing Councilmembers. The letter is attached as Exhibit A. On November 18, 2024, the City Council adopted a resolution declaring the intent to transition to District-Based elections. Since Council adopted the resolution of intent a prospective plaintiff may not commence an action within ninety (90) days of the resolution of intention's passage.

DISCUSSION/ANALYSIS:
As a part of the transition process, State law requires the City hold at least two public hearings over a period of no more than 30 days, at which the public is invited to provide input regarding the composition of the districts. No official maps can be drawn before the completion of these two public meetings. Once the initial two meetings are complete, the demographer and public can begin to officially draw maps that will be considered in the districting process. State law requires the City to then hold at least two additional hearings over a period of no more than 45 days, at which the public is invited to provide input regarding the content of the draft maps and the proposed sequence of elections. Once a map is selected, State law requires the City to publish the map at least seven days before consideration at a hearing for introduction of an ordinance to adopt the district map.

Staff has prepared a timeline that identifies the planned schedule for the required public hearings and public outreach and complies with Elections Code 10010. City Staff met with the potential plaintiff's attorney regarding an extension of an additional sixty days beyond the ninety-day statute. Elections Code section 10010 provides that a city may enter into a written agreement to extend the 90-day period in order to provide additional time to conduct public outreach, encourage public participation, and receive public input. With the extension, Staff anticipates completing the transition to district elections by April 2025.

Transition to District Based Elections: First and Second Public Hearings
The City conducted the initial two public hearings on December 16, 2024 and January 6, 2025. At the first and second public hearings, the Council received a report from the City's

demographer, Redistricting Partners, about the basics of the districting process and identifying communities of interest. The video and presentation from the first and second meeting can be found on the City's dedicated redistricting webpage which can be found here: https://healdsburg.gov/1152/Transition-to-District-Elections.

The Fair Maps Act defines a "community of interest" as a population that shares common social or economic interests that should be included within a single election district for purposes of its effective and fair representation. Characteristics of communities of interest may include, but are not limited to, shared public policy concerns such as education, public safety, public health, environment, housing, transportation, and access to social services. Characteristics of communities of interest may also include, but are not limited to, cultural districts, shared socioeconomic characteristics, similar voter registration rates and participation rates, and shared histories. Communities of interest do not include relationships with political parties, incumbents, or political candidates.

The City has received eight submissions of the Community of Interest forms which were posted on the City's website. The responses from those eight submissions are summarized as follows:

- Fitch Mountain
- Senior Communities and Homeowners Associations
- Parkland Farms Neighborhood
- Growth and Tourism
- Drought
- Grove Street and Downtown
- Park Development in the North part of town
- SMART Station development

Community Interest forms submitted as of February 10, 2025 are attached for reference and can be found on the City website. The Council also discussed renters as being a community of interest.

Transition to District Based Elections: Third and Fourth (and Fifth) Public Hearings
Now that the first and second public hearings are complete, the City must hold at least two additional hearings over a period of no more than 45 days, at which the public is invited to provide input regarding the content of the draft maps and the proposed sequence of elections. A fifth public hearing will then be held to adopt the selected map.

The City will need to comply with the Fair and Inclusive Redistricting for Municipalities and Political Subdivisions (FAIR MAPS) Act in adopting the districts, which provides criteria that the City must utilize when establishing election district boundaries or when undertaking the redistricting process (which must occur every ten years after each population census). The criteria is summarized below:

a. The election districts must be substantially equal in population based on the most recent census.
b. The districting body shall adopt election district boundaries that comply with the United

States Constitution, the California Constitution, and the federal Voting Rights Act of 1965 (52 U.S.C. Sec. 10301 et seq.) and consistent with the federal Voting Rights Act, the districting body shall determine whether it is possible to create an election district or districts in which a minority group is sufficiently large and geographically compact to constitute a majority in a single-member district, as set forth in Thornburg v. Gingles, 478 U.S. 30 (1986).

c. The districting body shall adopt election district boundaries using the following criteria as set forth in the following order of priority:

1. To the maximum extent practicable, election districts shall be geographically contiguous. Areas that meet only at the points of adjoining corners are not contiguous. Areas that are separated by water and not connected by a bridge, tunnel, or regular ferry service are not contiguous.

2. To the maximum extent practicable, and where it does not conflict with the preceding criterion, the geographic integrity of any local neighborhood or local community of interest shall be respected in a manner that minimizes its division.

3. To the maximum extent practicable, and where it does not conflict with the preceding criteria, election districts shall be bounded by natural and artificial barriers, by streets, or by the boundaries of the local jurisdiction. Election district boundaries should be easily identifiable and understandable by residents.

4. To the maximum extent practicable, and where it does not conflict with the preceding criteria, election districts shall be drawn to encourage geographical compactness in a manner that nearby areas of population are not bypassed in favor of more distant populations.

d. The districting body shall not adopt election district boundaries for the purpose of favoring or discriminating against an incumbent, political candidate, or political party.

Within 21 days of adopting final election district boundaries, the City Council will be required to issue a report that explains the basis on which it made its decisions in achieving compliance with the requirements and criteria of the Fair Maps Act, including, as to each neighborhood, community of interest, city, or census designated place that was split into two or more districts, the reason for that split.

At this third public hearing on February 18th, the community and the City Council will consider the 78 draft maps that have been submitted by members of the public and the 3 maps that have been prepared by Redistricting Partners. All of the maps are available on the City's website: https://healdsburg.gov/1152/Transition-to-District-Elections. The maps that have been submitted by members of the public through the City's "Districtr" mapping tool are identified by a numerical identification number (e.g., ID 277459)," and the maps that have been prepared by Redistricting Partners are identified by a letter (e.g., Draft Map A). Members of the public had the opportunity to submit maps for either four, five or six districts over the course of the last four weeks. The City received 1 map for one district, 26 maps for four districts, 39 maps for five districts and 12 maps for six districts. The City must publish the maps that will be considered at a public hearing seven days in advance of the meeting. Staff has been posting draft maps over the last couple weeks and all of the draft maps included in the report were posted by February 11, 2025.

Redistricting Partners has prepared a FAIR MAPS Act Assessment ("Assessment") of the maps submitted by members of the public. This Assessment analyzed all of the ranked list of criteria pursuant to the FAIR MAPS Act in the order required (i.e., population size deviation is under 10%, contiguous, maintains "communities of interest", easily identifiable and understandable lines, compact, etc.). However, as indicated in the Assessment, Redistricting Partners can assess all criteria objectively except for "maintaining communities of interest". That particular criterion is subjective by definition and should be discussed by the City Council and public at this meeting to determine how well the draft maps fulfil this criterion.

With regard to the draft maps prepared by Redistricting Partners, a summary of each of the maps is provided below to summarize some of the relevant aspects of those maps:

- Draft A is based on renters which was identified as a community of interest, while ensuring the Latino Citizen Voting Age Population is maximized in District 2.
- Draft B is more focused on renters, while maintaining a more compact District 2.
- Draft C is based on one of the maps submitted by the community (ID 277577). As noted, the City received a high volume of maps from the community, and this map was chosen because it has a different configuration of the City than Draft Maps A and B. The eastern portion of the City is split differently and District 2 goes all the way to the south end of the City, picking up a relatively high population of renters in that area, ensuring it is still a renter-friendly district. It also an alternative approach to splitting the middle of the city (instead of there being one middle district, there are two).

Members of the public are invited to provide input regarding the content of the publicly submitted draft maps and the maps prepared by Redistricting Partners at the third public hearing. The initial proposed sequencing for draft maps is even-numbered districts in 2026 and odd districts in 2028. The Council and members of the public can also provide input on the sequence of elections, if desired.

Members of the public can also continue to submit maps for consideration at the fourth public hearing on March 17, 2025. The City's website provides instructions on submission of the map via printed maps or through the City's online mapping tool. The last day to submit maps for consideration at the March 17, 2025 meeting is 5:00 p.m. on March 9, 2025. Maps will be published March 10, 2025 in accordance with the seven day publication deadline.

Request for Direction and Next Steps
At the February 18, 2025 public hearing, staff will be seeking feedback on the drafts provided by the demographer as well as any community-submitted maps that the City Council wishes to review. Staff will seek feedback from the City Council on maps that best preserve communities of interest and best meet the larger goals of the districting process. Specifically, staff will seek to identify maps, or variants of maps, that should be brought forward for additional review and consideration at the fourth public hearing on March 17, 2025. Although there is no specific number of maps that can be considered at that stage, it will be necessary to vastly reduce the number of maps under consideration in order to allow the City to continue progressing toward a final determination in April.

ENVIRONMENTAL STEWARDSHIP:
Not applicable.

ALTERNATIVES:
The City Council could choose not to move forward with transitioning to district-based elections or pursue a different approach. If this alternative is selected, staff requests further direction.

FISCAL IMPACT:
There is a fiscal impact due to the costs associated with the transition to District-based elections. Costs include the demographer, which are estimated to be less than $50,000, legal costs, and payment of the plaintiffs' attorney costs of $30,000. The City Council appropriated a total of $100,000 for this effort at a prior meeting

ENVIRONMENTAL ANALYSIS:
This item does not constitute a project as defined by the California Environmental Quality Act (Public Resources Code § 21000, et seq.) (CEQA) as the adoption of the resolution does not have the potential to result in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment (14 Cal. Code Regs. § 15378).

Public Comment

	Tentative Timeline for Consideration and Implementation of District-Based Elections		
Date	**Event**	**Code §**	**Comment**
10/3/24	City received certified demand letter from Shenkman & Hughes	EC§10010(e)(1)	Before commencing an action to enforce Sections 14027 and 14028, a prospective plair shall send by certified mail a written notice to the clerk of the political subdivision ("City") against which the action would be brought asserting that the City's method of conducting elections may violate the California Voting Rights Act.
		EC§ 10010(e)(2)	A prospective plaintiff shall not commence an action to enforce Sections 14027 and 140 within 45 days of the City's receipt of the written notice described above (CVRA lawsuit cannot be commenced until November 17, 2024. Since this is a Sunday use the Novem 18, 2024 date).
11/18/24	Resolution is considered at City Council Meeting	EC§ 10010 (3)(A)	Within 45 days of receipt of a notice, the City may pass a resolution outlining its intentior transition from at-large to district-based elections, specific steps it will undertake to facilitate this transition, and an estimated time frame for doing so. (CVRA lawsuit cannot be commenced until November 17, 2024. Since this is a Sunday use the November 18, 2024 date).
11/18/24	Resolution is adopted at City Council Meeting	EC§ 10010(e)(3)(B)	If the City begins the process of switching to districts within 45 days and adopts a resolution to that effect a potential plaintiff cannot commence an action within 90 days o the resolution's passage. (CVRA lawsuit cannot be commenced until February 16, 2025 with 60 day extension, the new date would be April 17, 2025.
Before First Public Hearing and throughout process	Conduct public outreach, encourage public participation, and receive public input	EC§ 10010(a)(1)	The City may conduct outreach to the public, including to non-English-speaking communities, to explain the districting process and to encourage public participation.(i.e farmers market, public library, public schools, places of worship, homeowners associations, and community organizations)
12/16/24	1st Public Hearing (Regular Meeting)	EC§ 10010(a)(1)	First and second public hearings must occur within a period of 30 days. No maps for review, but take public comments on composition of districts and preferenc for district lines.
1/6/25	2nd Public Hearing (Regular Meeting)	EC§ 10010(a)(1)	No maps for review, but take public comments on composition of districts and preferenc for district lines.
2/10/25	Publish for review first drafts of district election maps and	EC§ 10010(a)(2)	After all draft maps are drawn, at least 7 days before the 3rd public hearing, the City sha publish and make available for release at least one draft map and, if city councilmember

4875-1596-6974 v1

	potential sequence of elections		will be elected in their districts at different times to provide for staggered terms of office, potential sequence of the elections.
2/18/25	3rd Public Hearing (Regular Meeting)	EC§ 10010(a)(2)	The City shall also hold at least two additional hearings over a period of no more than 4[ ] days, at which the public is invited to provide input regarding the content of the draft ma[ ] or maps and the proposed sequence of elections, if applicable.
3/10/25	Post any new or amended maps	EC§ 10010(a)(2)	Maps available for review at least 7 days before consideration at the 4th public hearing.
3/17/25	4th Public Hearing (Regular Meeting)	EC§ 10010(a)(2)	Take public comments on proposed maps. Council may introduce ordinance adopting t[ ] map at this meeting if map is not changed and selected at this public hearing. If map is changed at this meeting, the map will need to be published again for 7 days and ordinan[ ] cannot be introduced until 7 days after amended map is published.
3/31/25	Post any new or amended maps	EC§ 10010(a)(2)	Maps available for review at least 7 days before consideration at the 5th public hearing.
4/7/25	5th Public Hearing (Regular Meeting)		• If Council makes revisions to map introduced on 3/17/25, Council can re-introduce ordinance establishing district elections, including district boundaries and election sequence and adopt ordinance at next regular meeting on 4/21/25; or adjourn this regular meeting on 4/7/25 to another date to adopt ordinance; Or • If no revisions to map prior to second reading of the ordinance adopting the map, Council can adopt ordinance at this meeting; Or • Make further changes to map without introduction of the ordinance adopting the map

Public Maps: FAIR MAPS Act Assessment

The following maps were submitted by February 10, 2025 and can be considered during the February 18 public hearing

Under the FAIR MAPS Act, the City of Healdsburg is required to follow a ranked list of criteria in their districting process:

- Relatively equal in population size – total deviation is under 10%
- Contiguous
- Maintains "communities of interest"
- Easily identifiable and understandable lines, following city, natural, and man-made boundaries
- Compact

As demographers, we can assess all criteria objectively <u>except</u> for "maintaining communities of interest." This particular criterion is subjective by definition and should be discussed by the public and the City Council to determine how well these maps fulfil this criterion.

Total Maps: 78

- 6 Districts: 12
- 5 Districts: 39
- 4 Districts: 26
- 1 District: 1

Please note that people can submit multiple maps, so these tallies should not be equated to exact votes from the public.

Four-District Maps

ID 283651

"Tessa Kraft 2"
Total Deviation: 1.7%
Date of submission: 2/10/2025

Relatively equal in population size?	✓
Contiguous?	✘
Lines are easy to understand and identify?	✓
Compact?	✓

*There is a portion of District 3 in District 4, and it would need to be fixed before considering as a potential draft map.

Providing personal contact information is optional. If you provide an email address, we will send you updates on the process.

(Section Break)

1. What is the neighborhood/zip code where you reside?	95448- Vintage Hills
2. How do you describe your community? What are the common interests in your community? Describe how they are important:	1-4 acre parcels. Having access to affordable water, so we are able to irrigate our fruit trees, berries, vegetables, and landscaping.
3. Explain the geographical location of your community of interest. What are the physical boundaries/features (streets, freeways, parks, etc.)?	1-4 acre parcels with extensive landscaping, fruit trees and other farming plants.
4. Are the public services (bus lines,	No

1

libraries, public
schools, etc.) that help
identify your
community?

5. What type of homes (single family houses, apartments, condos, mobile homes, etc.) largely make up your community?	Single family homes on large parcels.
6. What is the rationale for your community of interest to be used in the City Council redistricting process? Please describe how the issues before the City Council has an impact on your community.	We were treated grossly unfair when we had a drought. We were given the same allotment of water as the properties in town. My area consists of large 1-4 acre parcels.
7. What else would you like to tell us about your community?	We need to be represented as much or more than the tourists.

Email   ███████████████████

Providing personal contact information is optional. If you provide an email address, we will send you updates on the process.

1. What is the neighborhood/zip code where you reside?

95448

2. How do you describe your community? What are the common interests in your community? Describe how they are important:

Love semi-rural small town atmosphere. Nice landscapes, many have gardens and pools. Mostly long time residents, many older. We share a desire to be surrounded by and participate in nature and want to be able to develop our outdoor space and enjoy it for as long as we live here. We need affordable water for that. Public safety is also a priority.

3. Explain the geographical location of your community of interest. What are the physical boundaries/features (streets, freeways, parks, etc.)?

101, Grove St, Healdsburg Ave

4. Are the public services (bus lines,

Not used much

libraries, public schools, etc.) that help identify your community?

5. What type of homes (single family houses, apartments, condos, mobile homes, etc.) largely make up your community?	Single Family Dwellings
6. What is the rationale for your community of interest to be used in the City Council redistricting process? Please describe how the issues before the City Council has an impact on your community.	Recent runaway spending on special interests, pro-tourism and pro-growth has diverted resources from needed infrastructure repairs driving up living costs and exposing us to water insecurity.
7. What else would you like to tell us about your community?	We are concerned about the on-going attack on our small town by those who want to transform it into a city like Palo Alto. The endless attacks are funded by our out of touch City Council using our tax dollars. Our community is not currently represented by a single person on the City Council.

Community of Interest Form

First Name	Marie
Last Name	Butler
Email	█████████████

Providing personal contact information is optional. If you provide an email address, we will send you updates on the process.

1. What is the neighborhood/zip code where you reside?

Parkland Farms

2. How do you describe your community? What are the common interests in your community? Describe how they are important:

Mostly single family homes. Barbieri Park is a popular, common area.
Common interests are the park's expansion, and there are concerns about increased growth and the traffic that brings on the north end of town.
Another access road is needed for emergencies.
A plus is the new fire substation.

3. Explain the geographical location of your community of interest. What are the physical boundaries/features (streets, freeways, parks, etc.)?

We are bordered by Healdsburg Ave., the open space, Montage, Rosewood Ave. Further north is also Enso.

4. Are the public services (bus lines,

There is a city bus. The county bus runs by on Healdsburg Ave.

1

Attachment: Community of Interest Forms (4752 : Public Hearing #3 - District Elections)

libraries, public schools, etc.) that help identify your community?

5. What type of homes (single family houses, apartments, condos, mobile homes, etc.) largely make up your community?	Mostly single family homes. Some small businesses on Healdsburg Ave. Enso and Montage to the north. Senior housing by Rosewood.
6. What is the rationale for your community of interest to be used in the City Council redistricting process? Please describe how the issues before the City Council has an impact on your community.	Parkland Farms Blvd. is a logical demarcation line. Rosewood area could be included, too. Healdsburg Avenue is also a natural line. Healdsburg Ave. needs repairs. The potholes were supposed to be fixed "after Montage," then "after Enso." Sometimes it feels like the north end is neglected. Cars speed. If Healdsburg is to be more "walkable," then it needs to be more pedestrian friendly, too.
7. What else would you like to tell us about your community?	Good neighborhood. People look out for each other. Concern is for more roads/access out of the community in case of fires. I believe that is a goal of the city, after Barbieri park is further developed.

RECEIVED

CITY OF HEALDSBURG

Healdsburg, CA 95448

December 18, 2024

Healdsburg City Council
City Hall
401 Grove St.
Healdsburg, CA 95448

re: district elections

Dear Councilors,

I am writing to urge you in the strongest possible terms not to allow Healdsburg to be blackmailed into making a questionable major change to the city's governance by a publicity- and fee-seeking attorney who has no connection to the city. The issue raised by the attorney – under-representation of the city's large Hispanic community on the City Council – is genuine and important, but the approach into which the attorney is apparently attempting to railroad the city has severe and unfixable drawbacks, which other well-tested ones do not. Please consider better alternatives before proceeding further.

I offer the following grounds for rejecting the proposal for district elections as a remedy to the above issue.

* Courts have repeatedly found that electoral districts must be reasonably shaped and contiguous. Based on my 12 years as a City resident and homeowner, I believe the city's Hispanics are not concentrated geographically in a way that can meet that criterion; drawing such districts will not be possible.

* Districts lock in preferential treatment of one particular group permanently. Districts that give Hispanics greater voice as a group will hinder other under-represented populations that deserve a voice on the council from time to time, such as renters, seniors, and/or persons employed locally. In particular, while ethnicity has particular legal standing as an equity criterion, so does age: Healdsburg has an exceptionally high proportion of older residents, but I believe does not have a history of proportionate representation of them on the Council.

* Unless the City espouses ethnic segregation as a permanently fixed condition, the geographical distribution of Hispanic voters is likely to change over time. Districts will need to be redrawn at irregular intervals in order for this "remedy" to continue to work.

There is a better alternative. Ranked-choice voting systems such as STV (https://en.wikipedia.org/wiki/Single_transferable_vote) achieve better outcomes, do not lock the voting method to a single discriminant such as ethnicity, and have been proven to work in other jurisdictions. By my reading of the attorney's filing, the law that the attorney is using as a cudgel does not mandate district elections, only elections that provide equitable opportunities for minority representation. STV and other ranked-choice systems accomplish this goal without the drawbacks of district elections. So

please rescind your premature endorsement of district elections, and choose a system that has been proven to work better.

Whether or not you do this, I ask that you provide the following:

* Copies of any public records that you created or received in connection with responding to the attorney's demand for changes in the City's election.

* Copies of any communications between the Council and the City Attorney, other than those identified at the time of creation as subject to client/attorney privilege, in connection with the same.

* Transcripts of any public hearings, or of City meetings subject to the Public Records Act and/or the Brown Act, in connection with the same.

* To the extent not covered by the above, any public statements by the Council and/or individual Councilors regarding alternative voting methods such as STV that would address the issues raised by the petitioning attorney.

For any individual materials responding to the above that are available to the public through the City's Web site and will continue to be so available for at least 5 years, a Web URL will be an adequate response. For all other materials, please provide either a hard copy mailed to the address above, or an electronic copy in PDF, PNG, or JPEG format e-mailed to ███████████████

I request that this letter, and your response, become part of the public record available to the public through the City's Web site.

Sincerely,

L Peter Deutsch

[CAUTION:] This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Chris,
Please share this email with your fellow City Council members.

In regards to a mayor for the City of Healdsburg:
The current City Council members have decided, without taking into consideration, what would have allowed for more input from Healdsburg citizens, that the number of city districts should be five. It also insists on continuing with a rotating mayor. Discounting, who many of us feel should be determined by we citizens through an election.

I feel that it would be a conflict of interest for a council member who is representing the wishes of their district to also be the mayor who is representing all oHealdsburg.

It is important in the process of deciding the mayorship for Healdsburg that the citizens be given a voice in that decision making process. The City Council would benefit greatly in regaining the confidence of Healdsburg's citizens by allowing this election process to take place.

My hope is that you and the council will carefully take into consideration my comments in moving forward on electing a Mayor for Healdsburg.

Thank you,
Pat Carrubba

Subject: [EXTERNAL] - Jan 16 workshop Healdsburg

Thank you for presenting Healdsburg's Redistricting Workshop on January 16. Just some thoughts....

The map visual used during the presentation was difficult to see. It was too small from a distance. The map needed to be larger or a detail portion of the map enlarged to make it easier to see the Redistricting tool in action.

In addition to presenting how the redistricting map tool works, actually asking the audience to suggest districts and create a map might have been even more instructive.

Plus, something in the hand to take-away-an old fashioned handout. One slip of paper reiterating important points covered during the meeting including links to the Redistricting tool. And, of course, an end date. I see we have up to seven days before the 3rd meeting....does that mean all maps must be posted on or before February 7th ? Maybe I have that wrong. Could you clarify the Redistricting map due date?

Thank you.

To:	City Council
Subject:	[EXTERNAL] - Districts and Mayor

February 7, 2025

Healdsburg City Council
City of Healdsburg
401 Grove Street
Healdsburg, CA 95448

Dear Healdsburg City Council Members,

I am writing to express my strong support for the decision to implement a five-district system for voting in Healdsburg. I believe this approach will help ensure fair and effective representation for all residents, while providing an opportunity for diverse communities within our city to have a stronger voice in local government.

The five-district system will allow for more focused and equitable representation, enabling elected officials to better address the specific needs of each district. This will foster greater accountability and ensure that all areas of Healdsburg are properly represented, especially as our community continues to grow and evolve. Anymore than five would make the districts too small.

Also, as Healdsburg transitions to district elections, it is crucial that we focus our efforts on establishing fair and equitable districts, rather than diverting attention to the unnecessary distraction of a generally elected mayor. At first glance, the idea of a directly elected mayor may seem appealing, but it fundamentally misses the mark for what our city needs at this pivotal moment. With its relatively small population and diverse neighborhoods, Healdsburg is better served by a collaborative council model where leadership rotates, and decisions are made collectively. A single, directly elected mayor risks consolidating too much power in one individual, potentially giving disproportionate influence on certain groups or neighborhoods. This would undermine the principles of equity and shared governance that district elections are designed to promote. Moreover, the time and resources spent debating this issue detracts from the critical work of defining district boundaries.

1

The shift to district elections is a significant change, and it must be handled with precision and care. Our focus should be on creating districts that reflect the unique makeup of our community, ensuring that all neighborhoods have an equitable voice in local governance. A generally elected mayor does not address the core challenges we face. It will not improve representation, nor will it enhance governance. Instead, it risks creating unnecessary division and distraction at a time when unity and focus are most needed. Let's stay focused on our priorities: equitable representation through well-designed districts. This is the work that will truly strengthen Healdsburg's future.

Thank you for your consideration of these important decisions. I look forward to the positive impact this change will have on Healdsburg and its residents.

Sincerely,
Steve Johnson

Subject: A few thoughts on districting, and thank you
To: <akelley@healdsburg.gov>

Hi Ariel,
I wanted to take a few moments to thank you for standing up for the community in the first two (re)districting meetings.

I appreciate that you stated in the first session that the community didn't expect for direction to be set at that meeting, nor did it need to be. At the second you made a strong case for the Mayor-at-large option and having a 7 person council with 6 districts. I believe your points were valid, and opened the door for the council to not only be more inclusive, but to also be more transparent.

I am disappointed with the other council members' position in wanting to maintain the 'status quo' when it is clear to many of us that it isn't the best path forward.

Given the accusations of the Brown act violations, and your point that they would be less likely to occur with a larger council body, and the point of the districting which is to have more equitable representation for all of our community members, I would like to see the council embrace the possibility of other options and allow for open public discourse on the subject.

Please let me know what we as citizens of Healdsburg can do to help open the conversation, I want to believe that it is not too late. The intent was for community input. I fear that the decision was reached before the community was invited to voice their preferences and will not change.

I appreciate your thoughts.
With Kind Regards,
Rebecca

I understand that you conducted a survey at the onset that was published through your social media. If it's not too late, I would love to participate in that, I somehow missed it.

[CAUTION:] This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear City Council Members,

My husband and I are 32-year residents of Healdsburg. Having lived in this community for that length of time, we have seen many changes to the community. The district voting proposal for the city is one of the bigger changes that has come to life. We support the district voting concept and its potential to bring more accurate demographic representation to the City Council. However, this is still a town of about 12,000 people. Five districts are appropriate for this transition, and align with the number of City Council members.

We support continuing to select the Mayor from the five districts as has been historical process. The rotation promotes teamwork and collaboration in the Council. It also ties the Mayor to a district which we feel is a positive move. In time, every district will have mayoral representation which is also very positive.

Ultimately, district representation will be a good move for the City of Healdsburg. I wish it could have come from our own agenda and timeline instead of being pushed by litigation threats. We feel confident that Healdsburg will weather this change and continue to move forward on a path of progression.

Thank you for your service as Council Members, we appreciate what you do for the City.

Sincerely,

Mark and Sandy Walheim
