3 HOUSING

This chapter includes the City of Healdsburg’s goals, policies and implementation measures for maintaining, improving and developing housing for all income levels and special needs.

Housing Goals, Policies and Implementation Measures

GOAL H-A Accommodation of housing development

Policies

H-A-1 Maximize opportunities for the development of housing to accommodate anticipated growth and facilitate mobility within both the ownership and rental markets.

H-A-2 Maintain a supply of residentially-designated land that is adequate to accommodate Healdsburg’s share of the regional housing need and facilitate residential turnover with relative ease.

H-A-3 Support the highest appropriate density for residential development within Healdsburg.

Implementation Measures

H-1 Monitor the supply of residential land to ensure that sufficient developable land is planned and zoned for single-family and multi-family residential development.
Responsibility: Planning & Building Director
Funding: Planning & Building Enterprise Fund
Schedule: Included in annual report on Housing Element

H-2 Consider the potential impact on the achievement of the City’s quantified housing objectives when reviewing proposed residential development projects and proposals to downzone residential properties or reclassify residentially-designated property to other uses.
Responsibility: Planning & Building Department, Redevelopment Agency, City Council
Funding: Planning & Building Enterprise Fund, General Fund
Schedule: January 1, 2007 – June 30, 2014
GOAL H-B  Minimization of governmental constraints on housing development

Policies

H-B-1 Minimize the length of the review process for residential development applications to the extent feasible in order to minimize development costs.

H-B-2 Lessen the City’s Growth Management Program as a constraint on the development of multi-family housing, if feasible.

H-B-3 Minimize the time needed for the City to review and act on applications for small subdivisions of residentially-zoned land.

Implementation Measures

Funding: Planning & Building Enterprise Fund, General Fund
Schedule: Staff initiates City Council consideration by June 2011

Funding: Planning & Building Enterprise Fund, General Fund
Schedule: Staff initiates Planning Commission consideration by June 2010

Quantified Objectives

The following quantified objectives are based on the Housing Element’s identification of existing and projected housing needs, potential housing development sites and financial resources, and the Element's analysis of constraints to the development and maintenance of housing. This information has been used to establish reasonable estimates of what these programs and policies can accomplish.

The tables below estimate the number of units likely to be constructed, rehabilitated and conserved/preserved during the planning period (January 1, 2007 through June 30, 2014). The quantified objectives do not represent a ceiling, but rather set a goal for the City to achieve, based on needs, resources and constraints.

Construction Objectives

The quantified objectives for housing construction are the number of new units that potentially may be constructed in the Healdsburg Planning Area by the City with its non-profit partners and by private developers. They are based on the regional housing needs allocated to the City for the planning period by the Association of Bay Area Governments.
